VCET - Visvesvaraya College of Engineering & Technology Established by Jawahar Educational society in 2007, with a vision to create quality Engineering & Technology Education Integrating, creativity and innovation by Zealous group of dynamic individuals with vision and wisdom and having experience and expertise over four decades in running successful institutions and industries aiming to enable young aspirant to excel in increasingly competitive world. As we stand on the threshold of yet another era of skills, intelligence, knowledge and ready to take any challenge with belief where there is a problem there lies opportunities.

A Remarkable Journey - Nurturing greatness, and great change.....

The story of VCET began with a vision to equip, enable, and prepare, for anything tomorrow brings. To make that tomorrow, one we need. Technologically, industrially, economically, socially, and environmentally. We believe in nurturing talent, and empowering people. To become the best. And become the changemakers they were meant to be. Along the way, we grew too. We got bigger. We got better. Because, only the best, can give you the best.

VISION

Imparting State of art technical education to the student to face the global challenges and to meet the ever-changing needs of society with a human touch.

MISSION

Empowering the students with Creativity and Innovation in the fields of Engineering and Technology with a commitment towards basic human values. To Strengthen Nation and International, Industrial and Institutional collaboration for Symbiotic relations and inculcate entrepreneurial attitude and values amongst Learnes.

To develop a unique culture that instills responsibility and accountability in partnership with various stakeholders such as parents, society, business and education community

B.Tech & P.G. Programmes & Career Opportunities

Discover a wide range of B.Tech programs designed to build your future. Choose the path that matches your passion and shape your career.

CSE

- Software Developer
- Data Scientist
- AI Engineer
- Cloud Engineer

**CE
(Civil)**

- Structural Engineer
- Site Engineer
- Construction Manager
- Urban Planner

EEE

- Electrical Engineer
- Power Systems Engineer
- Control Systems Engineer
- Renewable Energy Specialist

**CSE
(AI & ML)**

- Machine Learning Engineer
- AI Specialist
- Data Analyst
- Robotics Engineer

**ME
(Mechanical)**

- Design Engineer
- Production Engineer
- Automobile Engineer
- Maintenance Engineer

ECE

- Electronics Engineer
- Communication Engineer
- VLSI Design Engineer
- Embedded Systems Engineer

**CSE
(DS)**

- Data Scientist
- Data Engineer
- Business Analyst
- Big Data Specialist

**CSE
(IoT)**

- IoT Developer
- Embedded Systems Engineer
- Automation Engineer
- Smart Systems Designer

IT

- Software Engineer
- Web Developer
- System Administrator
- Cybersecurity Analyst

VCET's vision to build a culture for innovative teaching and learning has led to faculty adopting a range of evidence-based pedagogies, which are identified and promoted by the Centre for Engineering Education Development (CEED). CEED regularly conducts training programmes and encourages faculty to engage in educational research.

OUR TEACHING METHODOLOGIES

35 seminars organized

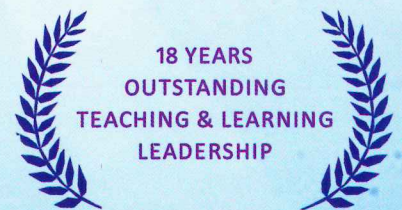

26 workshops organised

29 faculty development programmes organised

15 short-term training programmes organised

140 faculty trained

59 papers published

INFRASTRUCTURE AND FACILITIES

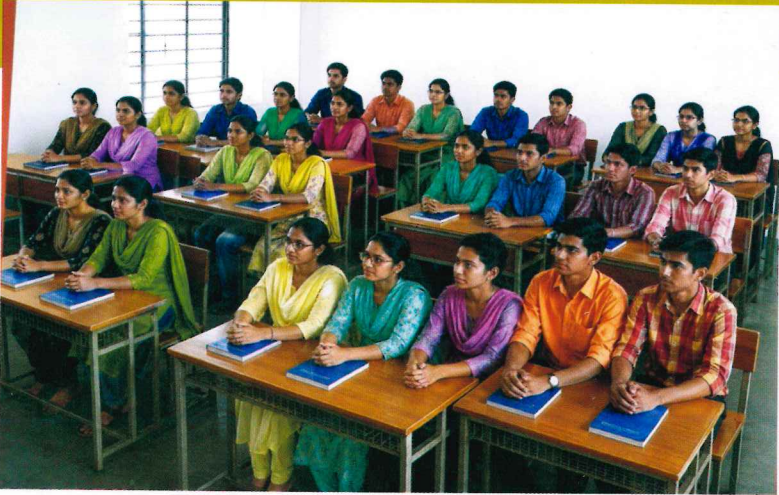

Where everything around is just as inspiring

A campus that inspires you, an ecosystem that empowers you to make change. The VCET campus is smart, state-of-the-art, green, animal-friendly. It's where everything around you is inspiring. So you have all the room to nurture your dreams, and make the tomorrow we need.

-  ECO-FRIENDLY CAMPUS
-  HIGH-SPEED WI-FI
-  INDOOR AND OUTDOOR SPORTING FACILITIES
-  WELL-CONNECTED WITH BUS TRANSPORT
-  SEMINAR HALLS
-  CAFETERIA
-  STATE-OF-THE-ART LABORATORIES
-  HOSTEL FACILITIES IN CLOSE PROXIMITY
-  DIGITALLY-ENABLED CLASSROOMS
-  IN-HOUSE STATIONERY

INDUSTRY TRAINING & PLACEMENTS

There's a distinct advantage you get with VCET. A head start over others. Our Training and Placements (T&P) Cell offers industry-relevant courses along with campus recruitment training, to enhance your technical and communication skills. You will also be provided with job opportunities through on-campus placement drives, attended by a plethora of top-tier engineering and multinational companies. From your 1st year, we will also provide internship assistance to help you build work experience in a relevant industry.

The Career Development Cell is established with an in-house trained psychologist to guide students on future pathways after graduation. The CDC works closely with students who are interested to pursue higher education in India an abroad.

OUR PLACEMENT PARTNERS

3 rd YEAR	<ul style="list-style-type: none"> Awareness sessions Soft skills Profile building (LinkedIn) Internships 	<ul style="list-style-type: none"> Campus recruitment training Industry-relevant technical training Aptitude training Soft skills Advanced certification course
	4 th YEAR	<ul style="list-style-type: none"> Soft skills Industry-relevant technical training Certification course Internships

The VCET management, principal, and faculty believe that the outcome of education is apparent when you sharpen your skills and work on them every minute. Students' skills are moulded through various training sessions, which include technical, aptitude, verbal, and soft skills. By understanding the students' grasping level and delivery, they are individually trained based on their requirements. Keeping pace with the world and the multiplicity of careers is essential, and that drives us to provide training and guidance for those who aspire to crack competitive examinations. The ambience in the Training and Placement Department is an inspiration for all its spatial dimensions: interview cubicles.. group discussion halls, mock interviews, special recruitment trainings, and motivational lectures by achievers, accomplished guest speakers

VCET also encourages the students to think and take up entrepreneurship as a career and startups, availing their Central Government schemes, etc. The students have a complete professional environment to learn and equip themselves. A team of passionate staff works with a single motive for upgrading the students to the next phase of life by all means.

PARENT SPEAK'S : we heard it as a prestigious institution in Telangana state named after the great Engineer SIR Visvesvaraya Bharat Ratna. Truly, the institution is following his principles and values, with very good teaching methodology, and well-experienced faculty guidance my son has updating himself in all fronts to gain subject knowledge and skills to get selected in a good MNC job placement. I am also recommending my relatives and friends to consider joining their wards in VCET as it is an autonomous and NAAC 'A' grade.

Sri Rayudu Srinivas S/o. Raidu Ram, B.Tech, AI & ML

ALUMNUS Speak's : I'm proud to say that I belong to the wonderful temple of knowledge, VCET. My four years at VCET have been truly amazing. The amount of knowledge I've gained at this place has been immense and rewarding. I had the opportunity to study subjects in depth, learn to think, and value creativity, socializing, meeting new people, and listening to them. The amazing faculty, who came from different cultures and values, has been very useful. I must say that choosing VCET was the best decision...

Y. TARUN REDDY, CSE (AI & ML) TCS (Backend Developer)

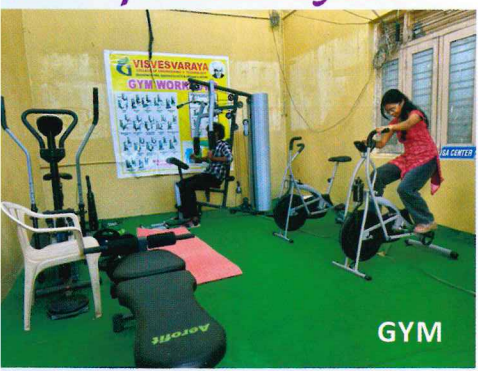

STUDENT IMPRESSION : I'm very happy to be a part of the VCET an autonomous institution. I came from a aackground, and with the guidance and support of the faculty members, I'm able to excel in my studies and gain subject knowledge. I also received placement training to confidently take job interviews. I'm sure I will crack the MNC job interviews, as our management frequently invites prominent recruiters for hiring. i will make my parents proud and serve the society which has given manythings due to which what I will be tomorrow.
